

## BELGIAN RANGE

Belgian chocolate is considered to be the gourmet standard by which all other chocolates are measured. What makes Belgian chocolate unique is the quality of ingredients and an adherence to Old World manufacturing techniques.

We at Jus' Trufs have been perfecting the art since 2001, and have trained with several European masters in order to bring you our selection of pralines, thins and bars, using the finest ingredients from Belgium. Our Belgian couverture is 60-70% dark, smooth and intense.

### Belgian Style Pralines

50
